SUMMARY OF WORK

Worked in the AI team on Project Aura, an AI assistant that understands how a person feels from what they type and how they sound, and replies in a caring, human-like way. Helped build and test the parts that detect emotion and shape the assistant's replies.

KEY TASKS AND CONTRIBUTIONS

- Tested AI models that read a sentence and identify the emotion behind it, such as joy, sadness, anger or fear
- Helped test a model that picks up emotion from a person's tone of voice
- Helped combine the text and voice results into one final emotion for the assistant to use
- Wrote and improved the instructions (prompts) that guide how the assistant replies
- Checked the assistant's replies to make sure they sounded natural and caring
- Shared progress in weekly reviews and worked in pairs with other interns

SKILLS AND TOOLS

Python, PyTorch, Hugging Face, LangChain, Gemini API, prompt writing

PERFORMANCE AND REMARKS

Learned new AI tools quickly and showed steady progress throughout the program. Worked well with the team and completed assigned tasks on time.
