SUMMARY OF WORK

Worked in the data team on Project Aura, an AI assistant that understands emotions and responds like a person would. Prepared and organised the information the assistant learns from and looks up during a conversation, so its answers stay accurate and relevant.

KEY TASKS AND CONTRIBUTIONS

- Collected and cleaned text data used to test and improve the assistant
- Prepared labelled examples of different emotions for testing the AI models
- Helped load information into a search database (ChromaDB) that the assistant uses to look up facts
- Checked that the assistant found the right information when answering questions
- Used Pandas to explore the data and spot gaps or errors
- Kept clear notes on data sources and changes for the rest of the team

SKILLS AND TOOLS

Python, Pandas, Hugging Face Datasets, ChromaDB, data cleaning

PERFORMANCE AND REMARKS

Careful and thorough with data, and paid close attention to accuracy. Worked well with the AI team and completed assigned tasks on time.
